

VIRGINIA WINS MEET

Sterrett Breaks Southern Pole Vault Record.

CLEAR BAR AT ELEVEN FEET

Hatchette Startles Spectators at Richmond Intercollegiate Club Indoor Games by Setting a New Mark for Event—George Washington and Virginia Tech Tie for Second Place.

Special to The Washington Herald.
Richmond, Va., March 21.—Shivering athletes, almost unable to carry out the details of a lengthy programme representing nearly every college in Virginia and several neighboring institutions, took part in the third annual indoor track meet of the Richmond Intercollegiate Club to-night at the Horse Show Building.

The sturdy youngsters were greeted by a great outpouring of society people, nearly every one of the 100 boxes being crowded with society belles and their escorts. The sudden change in the weather kept the crowd down to within 1,000 persons, many of those who had purchased tickets remaining at home rather than risk their health in the bleak building.

Referee Wadley called time at 7:30 o'clock, and from then on to finish the crowds kept cheering, and, despite chills, urged the athletes to their best endeavors. While the runners were speeding around the track the pole vaulters and high jumpers were kept going within the immense circle.

Holiday Wins High Jump.
Perhaps the feature of the event was the manner in which Holiday, of the University of Virginia, broke the record of that school for the high jump, clearing the bar at 5 feet 10 inches, and the case with which Connors, of Wesleyan, leaped away with the one-mile run, doing the distance in 4:40, his competitors being far in the rear at the finish.

Virginia won the championship trophy, her athletes making thirty-eight points, as against eleven by her next nearest opponent, George Washington and the Virginia Polytechnic Institute tied for second place.

Sterrett, of George Washington, carried the crowd away with him when he broke the Southern record for the pole vault, clearing the bar at 11 feet, with never a touch.

CHICAGO TRIMS PENN QUINT.
Spring Surprise in Series for National Basketball Title.

Chicago, March 21.—University of Chicago basketball players took a firm hold on the national intercollegiate title at Bartlett gymnasium to-night, winning a stinging contest from the quint representing the University of Pennsylvania by 21 to 18.

The second contest of the series for the title of champions of the United States will be played at Philadelphia Wednesday.

Victory for the Maroons on that occasion means the premier honors, while a defeat for Chicago will make a third game necessary. In such a contingency the two squads will battle at the Columbia gymnasium in New York.

The victory scored by the Maroons was clean cut and decisive. The better team won without a question of doubt. The success of the Midway team cannot be ascribed to one individual, but Capt. John Schommer at center did more than any other athlete to give Chicago the long end. Schommer's work was of the sensational variety.

Chicago's defense was the feature of the contest. The short passing and dribbling of the Pennsylvania five was excellent.

REGATTA AT SPRINGFIELD.

National Association of Oarsmen Decides Place of Coming Regatta.

New York, March 21.—At the meeting of the National Association of Amateur Oarsmen of America, held at the New York Athletic Club, to-night, the privilege of holding the national regatta on August 18 and 19 this year was awarded to Springfield, Mass. The only other applicants for the regatta were the Harlem Rowing Association, of this city, and the Saratoga Association.

Other matters were discussed, including the sending of a crew to the Olympic Games in London, but no action was taken.

Yale Beats Haverford at Soccer.

New Haven, March 21.—The Haverford champion soccer team met its final defeat of the year, when the Yale eleven trimmed it this afternoon by eleven goals to two. Haverford started off the scoring when Brown kicked a goal from the field, after a foul by Yale. Soon O'Sullivan with a short kick sent the ball through and tied the score. Yale's second score was made near the end of the second half when, after fast teamwork, Congdon sent the ball through.

MISS ELSIE JANIS IN HER BIG THOMAS FLYER, "THE GREY STREAK."

In the party with Miss Janis are her mother, Mrs. Josephine Janis; Mr. Oliver Harriman, the Messrs. Frank and Maurice Roche (the famous twin of Boston), and Mr. O. Perry Belmont. Mr. Janis is one of many actresses who use the automobile for travel across country during the theatrical season. It is a 40-horsepower Model F.

TOM ECK ON TRAINING.

Would Like His Athletes in a Stall and Give Them Regular Work.

Boston, Mass., March 21.—Tom Eck, the old-time trainer, thinks human beings should be trained that same way that horses are. Eck developed many good men in his time and his information is valuable.

"When I began training horses," says Eck, "my father told me always to let my horses have green grass every day and I'd never have a horse go wrong. I made it a rule, and I never did have a horse get out of condition under my handling. When I began training men I thought the same idea ought to work."

In the old days they used the old English idea of training. Athletes ate no vegetables, much rare meat and any amount of dry, stale bread. It was stale bread three times a day and ale to drink instead of water. Scores of athletes died of fever simply on account of that diet.

"I switched from that idea, gave my men plenty of fresh vegetables, whatever meat they wanted, and then more vegetables. The result was that none of the men I handled went stale or became fever-dried. I let them have ice and good, clear water. Good water never hurts any athlete."

"Look at the way a trotting horse can repeat running ten or twelve times in a day, and all within three seconds or so of the same time. I've seen horses go out and do 2:05½ in the three straight heats, one after another. What man can run heat after heat in the same time? It's a matter of condition."

A man has twice the endurance of a horse. Man is the strongest animal in the world. In six days a man can run a horse to death.

"If you could take your athletes and shut them up in box stalls, feed them within five minutes of the same time every day, give them nine hours a day of undisturbed sleep, work them under the supervision of men as smart as the men who train horses, and then send them out to compete, you'd have the greatest record-breakers in the world, and they'd be able to go out and repeat as often as you wanted them to."

TO PICK OLYMPIC CREW.

Committee Wants Each City to Develop Eight-oared Outfit.

According to advice received from James Pilkington and Julian Curtis, who compose the committee which is to select an American eight to row in the Olympia regatta in England next July, they have abandoned their original plan to have this crew made up of the star oarsmen from the leading clubs of the country. They have come to the conclusion that the selection of a crew on this basis is impracticable. The scheme they now favor is one suggested in the press, to permit each city which fosters rowing to develop an eight of its own and then to have these various crews compete in a preliminary regatta against the victors of the English regatta. This would represent the United States in the Olympics.

The difficulty the committee encountered in its original plan was the best arrangement of the different cities, while desiring of representing this country, could not be induced to give up their business affairs in order to go to some central place for training purposes.

It was the unanimous opinion of rowing experts in the East that a much better method to get out the strongest available crew would be to let each city develop its own eight and have the best of the lot represent this country. This scheme was acceptable to the committee, and when the final plans are announced this will undoubtedly be the method followed.

It is open to doubt whether any of the college eights could successfully compete in the preliminary regatta, for the reason that the intercollegiate races are over a course of four miles, while the Henley course, where the Olympic regatta will be contested, is only a mile and five-sixteenths.

BRITISH CHESSMEN LOSE.

Americans Lead in Cable Match for Rice Trophy.

Philadelphia, March 21.—The British chess players, representing Oxford and Cambridge in London, tackled the American college sextet to-day in the eighth of the series of intercollegiate contests by cable for the Rice trophy. When play ceased this evening the Americans led by the advantage, with a score of 2 points to 1, three games remaining unfinished.

Thereupon draws were offered to the Britons on all three boards, but the latter declined, preferring that they be adjudicated by Walter P. Shipley, of this city, the referee. The latter would not give his decision on the spot, and said it might be a week before his decision was given. The opinion is expressed by experts in attendance here to-night that the Americans would retain their lead after the adjudication, and win the match and the trophy.

Louis J. Wolf, captain of the Columbia team, pulled his game out of a complicated situation and scored for America, as did C. Williams, of Princeton, who found a flaw in the combination of his college eights could successfully compete in the preliminary regatta, for the reason that the intercollegiate races are over a course of four miles, while the Henley course, where the Olympic regatta will be contested, is only a mile and five-sixteenths.

The match was played from the hall of the Houston Club and the Inns of Court connected by direct cables. Not a hitch occurred the entire day.

New Record for Sheridan.

St. Louis, Mo., March 21.—Martin Sheridan, of the Irish-American Athletic Club of New York, last night broke the world's record in the 56-pound weight lift for height, with a throw of 15 feet and 7 inches at the annual indoor meet at the Jai Alai building, under the auspices of the St. Louis University. The previous record was 15 feet 6½ inches. The throw was made in a contest, two other contenders, B. N. Robinson, of St. Louis University, and N. Dunham.

TENNIS DATES ANNOUNCED

Eighty-nine Events Scheduled to Be Played in United States.

Season Will Begin on May 9 with Princeton Intercollegiate Championships—Ends in October.

Lawn tennis championship and tournament dates for the season of 1908 were announced a few days ago by the executive committee of the United States National Lawn Tennis Association. The list includes eighty-nine events, with more to be added. The season in the United States begins May 9, when the Princeton intercollegiate championship will be decided, and continues until October 5, when the intercollegiate championship brings it to a conclusion.

Outside of play at the colleges, the season starts in New York on May 20, when the Kings County Tennis Club of Brooklyn holds the Long Island championship. The Bachelors Lawn Tennis Club of this city, follows with the Middle States championship on May 24, after which the meetings come thick and fast. A number of meetings figure in the list for the first time, but all except three were played last year without official sanction. The tournament of the Staten Island Ladies' Club on June 1 is new.

The ties between the East, West, and South in the national doubles championship will be played August 13 to 15, the same week as the Southampton tournament, as they were last year. Aside from this, there are few serious conflicts, with the exception that the Metropolitan, New England, and Massachusetts championships, played at the West Side Tennis Club, Hartford Golf Club, and Longwood Cricket Club, respectively, all come in the same week. The partial list follows:

May 9, Princeton intercollegiate championship; 11, University of Pennsylvania intercollegiate championship; 12, Columbia University intercollegiate championship; 13, New Haven Lawn Club championship;
